Approved SDL Specifications and SDL Software
V 1.0 2017-05-09

The following SDL Specifications and SDL Software have been approved by the SDLC Board of Directors as required in the SDLC Bylaws.

SDL Specifications:

Documentation and Guides for the components of SDL Core (Embedded) and Proxy (Android and iOS) are located here: https://smartdevicelink.com/resources/pdfs/.

The date of the last approved revision is included at the top of each document.

SDL Software:

Code for each component of SDL Software is located under the component's respective GitHub repository: https://github.com/smartdevicelink.

The date of the last approved revision is included within each repository.
